

Webinar: e-mobility: »Slovenia's green mobility solutions on land, air and sea«

Join e-mobility: "Slovenia's green mobility solutions on land, air and sea" by SPIRIT Invest Slovenia

E-mobility technologies from automotive to marine and aviation are rapidly revolutionizing mobility.

Join us and connect with world-class Slovenian eMobility developers on **Thursday, November 26, 2020 at 10:00 AM (CET)**.

Establish new partnerships with Elaphe, C-Astral, Emsiso, edyn by Podkriznik, and The National Institute of Chemistry.

These E-mobility leaders will have a short presentation of their products, followed by a round table discussion about the rise of eMobility.

REGISTER

Key benefits for participants:

- Meet Slovenian E-mobility leaders
- Discover key insights, trends, and research on the E-mobility
- Learn about potential partners and investments in Slovenia
