Slovenia ranks as one of the least restrictive OECD-member countries for FDI, doubling its FDI stock in the last ten years. It has a well-developed system of investment tax relief as well as R&D tax incentives and a highly skilled workforce. In the past few years, it has been one of EU’s fastest-growing economies, mostly due to the continued steady increase in exports.

We kindly invite you to attend the virtual investment conference on Wednesday, 9 December 2020, at 10 AM.

Following topics will be highlighted:

**Investment opportunities
in Slovenian tourism**

**Commercial Development
Opportunities in Slovenia**
